

Product Description

This revolutionary camera design integrates a rear vision camera with your vehicle's rear license plate. It's easy to mount and it will enhance the look of your car, truck or van. The License plate camera integrates with your vehicle so well, you'll hardly notice it was there and it's small and thin size makes your license plate more beautiful.

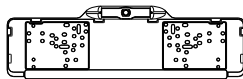

The wide viewing angle CCD color camera provides a full rear image in real time and eliminates the dangerous blind-spot directly behind your vehicle when backing up. The high resolution feature of greater than 250,000 pixels and greater than 420 TV lines makes it perfect image. High quality waterproof design makes it work normally in rain weather. With the help of low illumination intensity of 1.0 LUX, you can have a good rear viewing when the light is weak at night.

Specifications

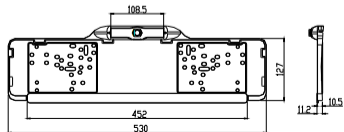

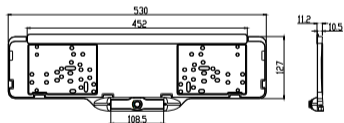

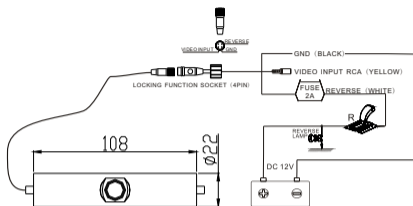

Pick-up Device	1/4" SHARP COLOR CCD SENSOR
Horizontal Resolution	420 TV Lines
Picture Element	NTSC: 510(H) X 492(V) PAL: 500(H) X 582(V)
TV System	NTSC / PAL
Gamma Characteristic	AUTO
S/N Ratio	More than 48dB
Electronic Shutter Time	NTSC: 1/60s ~ 1/100s PAL: 1/50s ~ 1/100s
Usable Illumination	1.0 LUX
Lens Mount	1.7mm pinhole lens
Video Output	1.0Vp-p 75ohm
Gain Control	AUTO
Operation Temperature	-10° C ~ +50° C
Storage Temperature	-20° C ~ +60° C
Power Supply	DC12V
